The Case of DELAYED & MISSING PERIODICALS

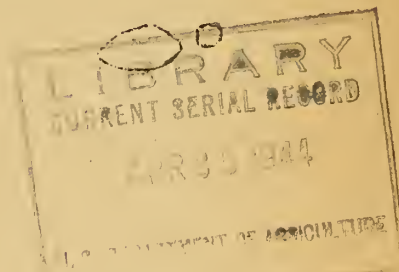

Many of the current periodicals routed from the library meet with strange delays and frequently disappear altogether. We have a hunch that most of them are held up or die in the mail boxes of traveling USDA employees. The Library Committee offers the following solution. The time limit on current periodicals is 3 days. If you plan to be away from your desk for more than one day, please instruct your secretary, the chief clerk of your division, or whoever has charge of your mail to cross your name off the routing slip and re-enter it farther down on the list. Then SEND THE PERIODICAL ON ITS WAY IMMEDIATELY. This literature is of greatest value and interest when brand new. Keep it moving so that it will reach the last person on the list in good time. We love "Who-Done-It's" for recreation but not connected with our serious work. Your cooperation in solving this case will be greatly appreciated.

Another "Who-Done-It"

A number of checked Newsletters have been received in the library without signatures or identification of any kind. If you have requested material by this method and have received no response from us, please notify us at once. Be sure to sign your name and give full address. This information is all the clue we need in solving such mysteries.
